Message from the Presbyter

Dear Friends in Christ,

We are in the Lenten season. During lent, we have planned various prayer meetings to strengthen our relationship with God and also with each other, which is the purpose of Jesus' sacrifice and the Church at present. It is a blessing that we exist as a worshipping community in Navi-Mumbai. In order to experience the fullness of life as a worshipping community we need to aim at the above two purposes that Jesus' sacrificial death and resurrection accomplished for us today.

Prayer meetings and Worship of the church is aimed to achieve this purpose that Jesus has for us. Of these two purposes, relationship with God is the ultimate. Without having a good relationship with God, relationship with each other does not become fruitful. In other words, it is the relationship with God that makes relationship with each other meaningful and intimate. In our relationship with God, we will learn to overcome self-centered attitude, which will in turn help in our fellowship with each other.

Relationship with God is a Living and Eternal one. We can relate to God because He establishes relationship with us. Eternal God, through His Son Jesus establishes eternal relationship with humanity. Jesus' crucifixion and resurrection accomplished this relationship to us. In order to experience fellowship with God, we need to approach Him by faith in Jesus Christ. In order to develop our faith in Jesus we need to read Bible and pray to God to open our eyes to see Jesus. Fellowship with God through Jesus is accomplished by the promised Holy Spirit, who is at the side of those, who believe in Jesus to help them to grow in their relationship with God through Jesus. As we come to Jesus, we must repent for our sins. Repentance was the key message of Jesus while he sojourned on earth and without repentance we cannot accomplish what Jesus had intended for us. After repentance we must avoid repeating the same mistakes for which we had repented. If we repeat, we must again repent and continue repenting until we overcome it. And in this process, we must keep our faith in Jesus and the promised Holy Spirit will come to our aid to help us in accomplishing what we are attempting for by our faith in Jesus.

After establishing fellowship with God through Jesus, we must continue to learn and grow in our knowledge of God. When we grow in the knowledge of God, the divine qualities will start inculcating in our own life, which will in turn direct us to our fellow human beings. When we interact with our brothers and sisters with the enriched life that we have acquired in Christ, we will be brought together closer and closer with God and also with each other. Relationship with each other is the direct result of our faith in God, which means that faith in God improves our relationship with each other. This is the context in which our church should function here. And if all of us will aim for these directives, it will certainly help to accelerate our church's fellowship and growth, which in turn will help the society at large. We have not yet thought seriously about our role in society. Malayalam Churches in Mumbai and Navi-Mumbai can think about jointly starting a mission program, which will make our existence as a church in this city meaningful.

Lenten season prayer meetings, church convention, Passion Week programs including family retreat are all designed to achieve the above stated purposes in our lives. If all of us will give our whole-hearted participation into it we will see miracles happening in the name of Jesus in our Church life. I earnestly encourage all the members to concentrate your eyes to Jesus through the Word of God and participate in all the prayer meetings so that Jesus can act in our life. May God make our church a Life- giving and Life- radiating Church. Amen.

With love and prayers,
Rev. Varghese Enathickal V.

Those, who are 18 years and above, need to fill up and sign in Pink colour form individually and pay subscription separately. Those, who are below 18 years, their names need to be filled up in white colour form by parents.

Everyone needs to pay a minimum of one month Subscription in the Trust before the financial year of 2014-15 ie., before March 31, 2015. From the next financial year onwards, you need to pay only the subscription of the Trust. Thus slowly the church subscription and membership will be absorbed into the Trust.

HUMAN DEVELOPMENT AND ECOLOGICAL CRISIS

Human development is proceeding at a vibrant pace all over the world. We build cities with increased facilities for our own well being without taking into consideration its effect on the environment. As development takes place on a large scale to accommodate human beings, the natural environment is being destroyed, which in turn is going to turn the development tables upside down in the near future. Eco scientists have already predicted that if human development goes on in the present scale, earth will turn into an uninhabitable globe for all species including humans. Particularity of human species is that they cannot live without other species, whereas other species may continue without humans. Even in creation, according to the Bible, humans are the last creation. God first created an environment for human species to sustain. Today we, humans, are destroying that very same environment, which God created for our well being, in the name of development and other petty reasons, without thinking about the bigger role Nature plays in sustaining life on earth.

Biblically, Earth has been given into the hands of humans since they are the highest form of creation in it. But we have developed greed and competitive spirit to such an extent that earth is almost at the verge of extinction of living beings. The whole issue that is to be discussed and practiced is why humans have been given an upper hand in creation. God might have thought that bearing His image, humans would do just as He does, creating and sustaining creation.

The rise of cancer patients in Kerala put an alarm on the ears of the authorities. It has led them to carefully examine various causes of cancer. One of the causes, they fear, that results in cancer is the food people consume. It has been reported that food materials imported from other states are to a large extent poisonous because of the over usage of pesticides while planting, and other highly toxic preservatives used while transporting. What should become good for the health of the people results in health hazards due to callous nature of handling environment and its produce. Use of pesticide also damages the land, killing the natural pest enemies, thus increasing obstacles to cultivation and destroying other biodiversities.

What should be our response in such situations? What should we do in order to prevent ecological destruction and extinction of species including humans? Let us see what insights we can gain from our Holy Text, the Bible, to prevent such mass destruction.

1. God's choice and fruitfulness (Gen 1: 27,28)

To begin with, we must start from the creation. In creation, humans became crown, not by virtue of our superior status, but by virtue of God's choice. If it is God's choice to be at the crown of creation, humans need to understand its role in relation to God's overall purpose. God took special care in creating and ordering the ecosystem, solar system and other planetary arrangements before creating humans and humans are placed in this system so that they may explore and maintain the harmony of creation. In verse 28 of the first chapter of Genesis, it is written: "God blessed them and said to them, Be fruitful and increase in number, fill the earth and subdue it". Here I would like to bring your attention to the word 'fruitfulness'. Traditionally it is understood that fruitfulness stands for numerical increase. But fruitfulness is not just a term to be understood physically. It can have lots of connotations, especially when Jesus has stressed to bear fruit in relation with Him and His Father (John 15:15, 16). Fruitfulness is a living condition where one comes to know about the Father's business. Jesus has made known His Father's business to disciples as far as they could grasp. In the present ecological crisis, in relation with Christ, it is our duty as Jesus' disciples to understand His Father's business in relation to our environment. God saw that all His creations were good at the time of creation and we cannot destroy what God had declared good by our careless handling of the environment for our selfish purposes. Environment was created not only for humans but for all living beings in it. Therefore we need to take care of all elements within the environment in order to do justice to God's overall purpose and be fruitful.
